
IMPORTANT NOTICE:

As of May, 2023, all 30-seconds content repositories have been merged into 30-seconds-of-code.

Please watch, star and follow relevant activity there.

Short code snippets
for all your development needs

30 seconds of code

Short Python code snippets for all your development needs

- Visit our website to view our snippet collection.
- Use the Search page to find snippets that suit your needs. You can search by name, tag, language or using a snippet's description. Just start typing a term and see what comes up.
- Browse the Python Snippet collection to see all the snippets in this project or click individual tags at the top of the same page to narrow down your search to a specific tag.
- Click on each snippet card to view the whole snippet, including code, explanation and examples.
- You can use the button at the bottom of a snippet card to copy the code to clipboard.
- If you like the project, give it a star. It means a lot to the people maintaining it.

Want to contribute?

- If you want to help us improve, take a minute to read the Contribution Guidelines first.

-
- Use the Snippet Template to add new snippets to the collection.
 - If you find a problem with a specific snippet, please open an issue.
 - If you find a problem with the website, please report it in the web repository.
