## DEPRECATED

No Maintenance Intended ✖

Afterglow is a minimal dark Theme for Sublime Text 2 and 3. Also it is a syntax color scheme. The theme is based on the great theme Spacegray. The syntax color scheme is mostly derived from idlefingers.

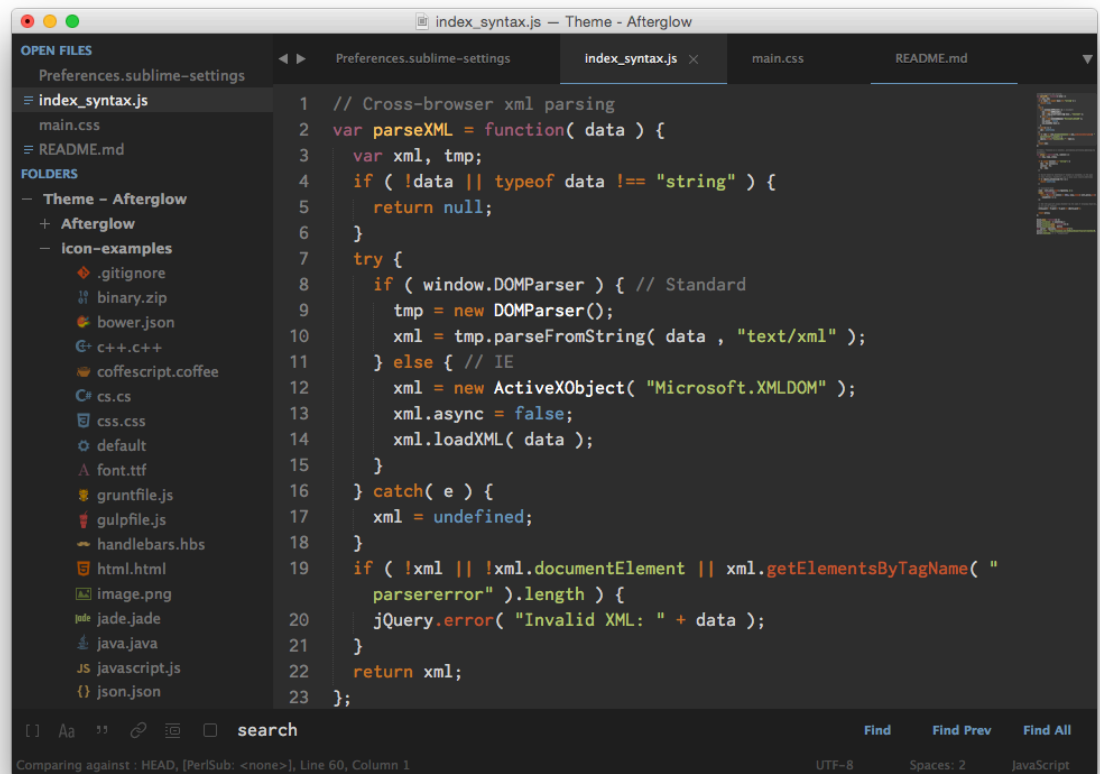

**Special thanks** to Max Riveiro @kavu for add a lot of icons for sidebar to this repository.

## Design & Colors

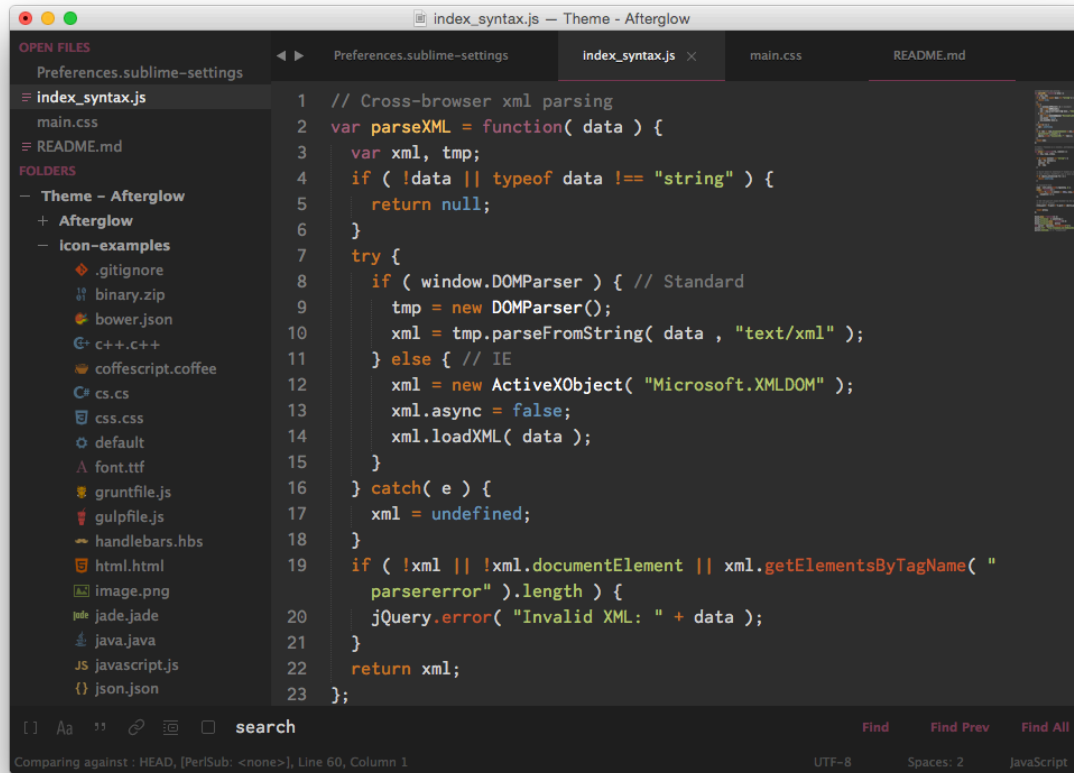

## Afterglow default

## Afterglow green

View a larger screenshot

The font used in the screenshots is **Inconsolata -g**.

## Installation

### Package Control

The easiest way to install is using Sublime Package Control.

- Open **Command Palette** using menu item **Tools -> Command Palette...**, or **Cmd+Shift+P** (OS X) **Ctrl+Shift+P** (Win/Linux)
- Type **Package Control: Install Package**
- Search **Theme - Afterglow**

---

## Git Installation

Locate your Sublime Text `Packages` directory by using the menu item `Preferences -> Browse Packages...`

Then, clone the repository using this command:

```
1 git clone https://github.com/Yabatadesign/afterglow-theme/ "Theme - Afterglow"
```

## Manual installation

- Download the .zip package from GitHub.
- Unzip the files and rename the folder to `Theme - Afterglow`
- Find your `Packages` directory using the menu item `Preferences -> Browse Packages...`
- Copy the folder into your Sublime Text `Packages` directory.

## Activating the Theme

Activate this theme and color scheme by modifying your user preferences file, which you can find using the menu item `Sublime Text -> Preferences -> Settings - User`.

Then add the following code settings, depending on the theme you choose. **(After activating the theme, you must restart Sublime Text.)**

### Settings for Afterglow

```
1 {
2     "theme": "Afterglow.sublime-theme",
3     "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"
4 }
```

### Settings for Afterglow-blue

```
1 {
2     "theme": "Afterglow-blue.sublime-theme",
3     "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"
4 }
```

---

### Settings for Afterglow-magenta

```
1 {  
2     "theme": "Afterglow-magenta.sublime-theme",  
3     "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"  
4 }
```

### Settings for Afterglow-orange

```
1 {  
2     "theme": "Afterglow-orange.sublime-theme",  
3     "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"  
4 }
```

### Settings for Afterglow-green

```
1 {  
2     "theme": "Afterglow-green.sublime-theme",  
3     "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"  
4 }
```

## Configuration

### Sidebar icons

**New:** Now Afterglow theme support sidebar icons.

---

Don't like the icons? Just add this to your preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {
2     "sidebar_no_icon": true
3 }
```

Don't like the folder icon? Just add this to your preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {
2     "folder_no_icon": true
3 }
```

### Tab Height Size Options

You can change the height of the file tabs (medium or small) by adding either to your preferences file [Sublime Text -> Preferences -> Settings - User](#):

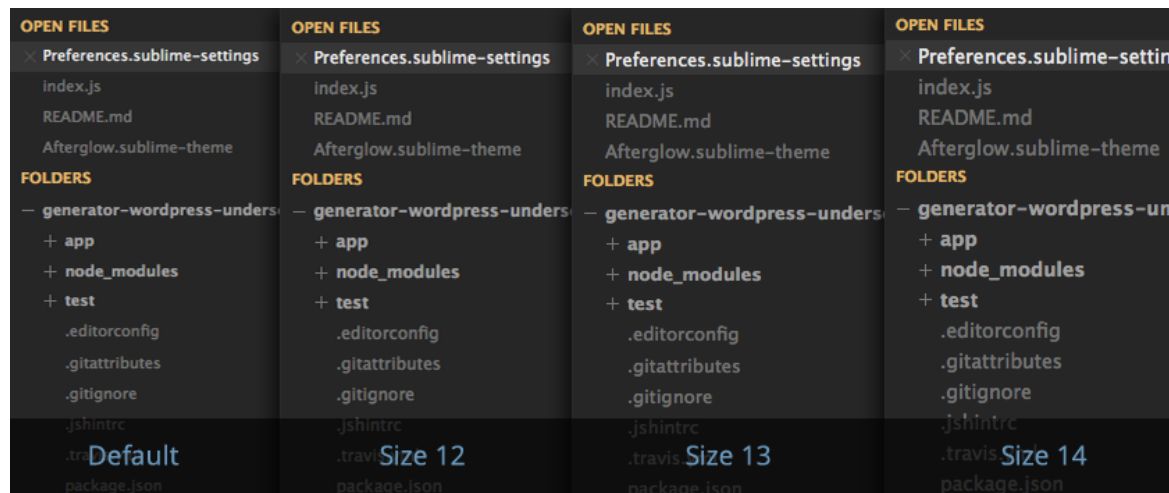

```
1 {
2     "tabs_medium": true
3 }
```

or

```
1 {
2     "tabs_small": true
3 }
```

### Sidebar Size Options

You can change the font size of the sidebar and the row padding.

### Sidebar font size

To **change the font size** (12, 13 or 14; default size is 11), you must add this to your preferences file  
Sublime Text -> Preferences -> Settings - User:

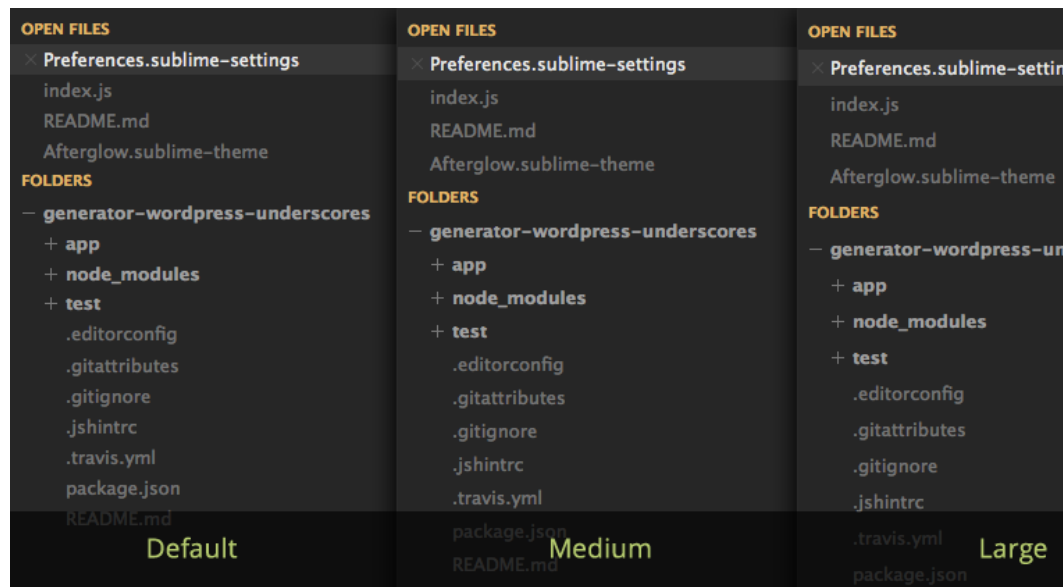

```
1 {  
2     "sidebar_size_12": true  
3 }
```

or

```
1 {  
2     "sidebar_size_13": true  
3 }
```

or

```
1 {  
2     "sidebar_size_14": true  
3 }
```

### Sidebar row padding size

To **change the row padding** (medium or large), you must add this to your preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {  
2     "sidebar_row_padding_medium": true  
3 }
```

or

```
1 {  
2     "sidebar_row_padding_large": true  
3 }
```

### Statusbar font size

To **change the font size** (12, 13 or 14; default size is 11), you must add this to your preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {  
2     "statusbar_size_12": true  
3 }
```

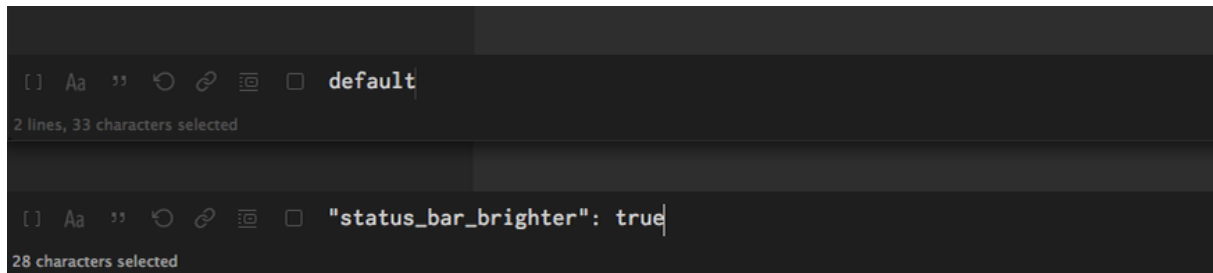

or

```
1 {  
2     "statusbar_size_13": true  
3 }
```

or

```
1 {
2     "statusbar_size_14": true
3 }
```

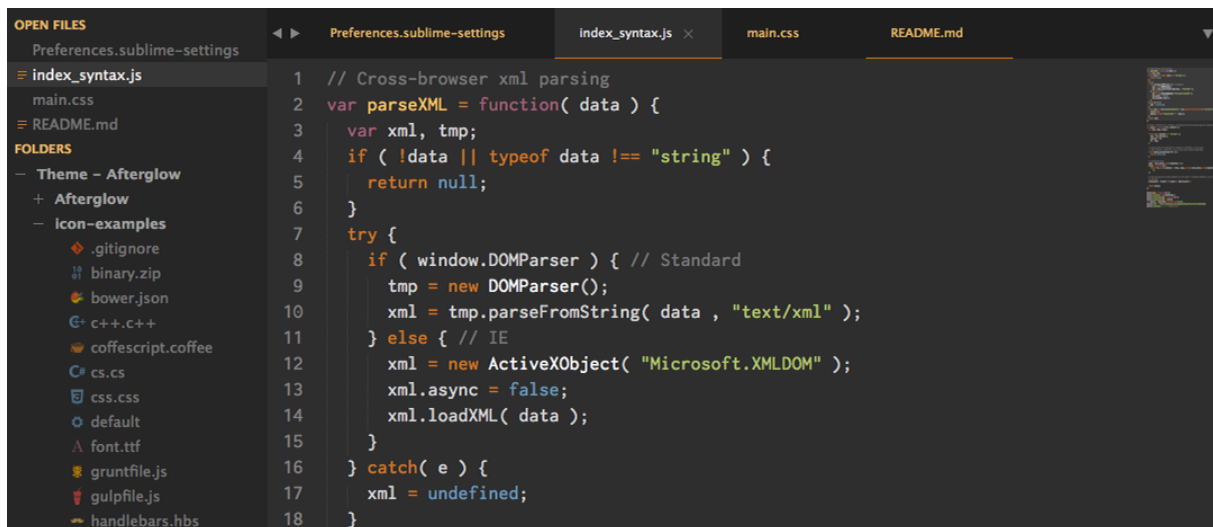

## Status bar brighter

If you prefer that the status bar has a brighter color, you have to add this in your user preferences file **Sublime Text -> Preferences -> Settings - User**:

```
1 {
2     "status_bar_brighter": true
3 }
```

## Color inactive tabs

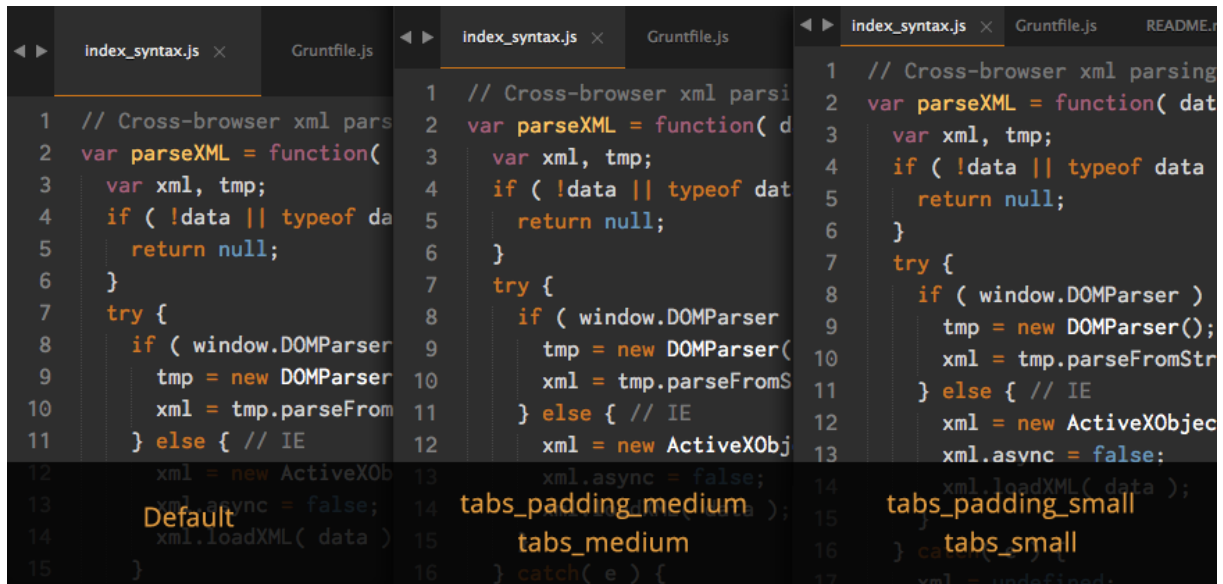

You can highlight the color of inactive tabs, adding this to the user preferences file **Sublime Text -> Preferences -> Settings - User**:

```
1 {
```

```
2     "color_inactive_tabs": true
3 }
```

## Horizontal padding tabs

Through the user preferences file, you can modify the horizontal padding of tabs. It works on all three types of height tabs (default, “tabs\_medium” and “tabs\_small”).

You must add this to your user preferences file **Sublime Text -> Preferences -> Settings - User**:

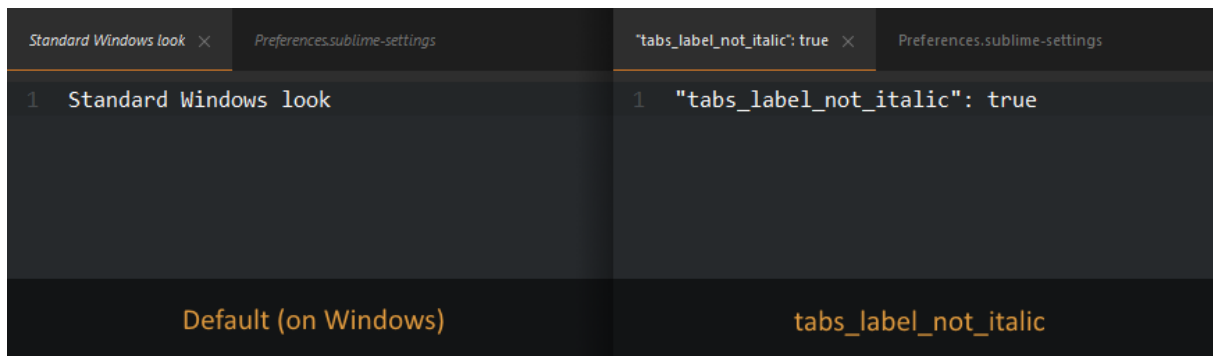

```
1 {
2     "tabs_padding_medium": true
3 }
```

or

```
1 {
2     "tabs_padding_small": true
3 }
```

---

## Non-italic tab labels on Windows

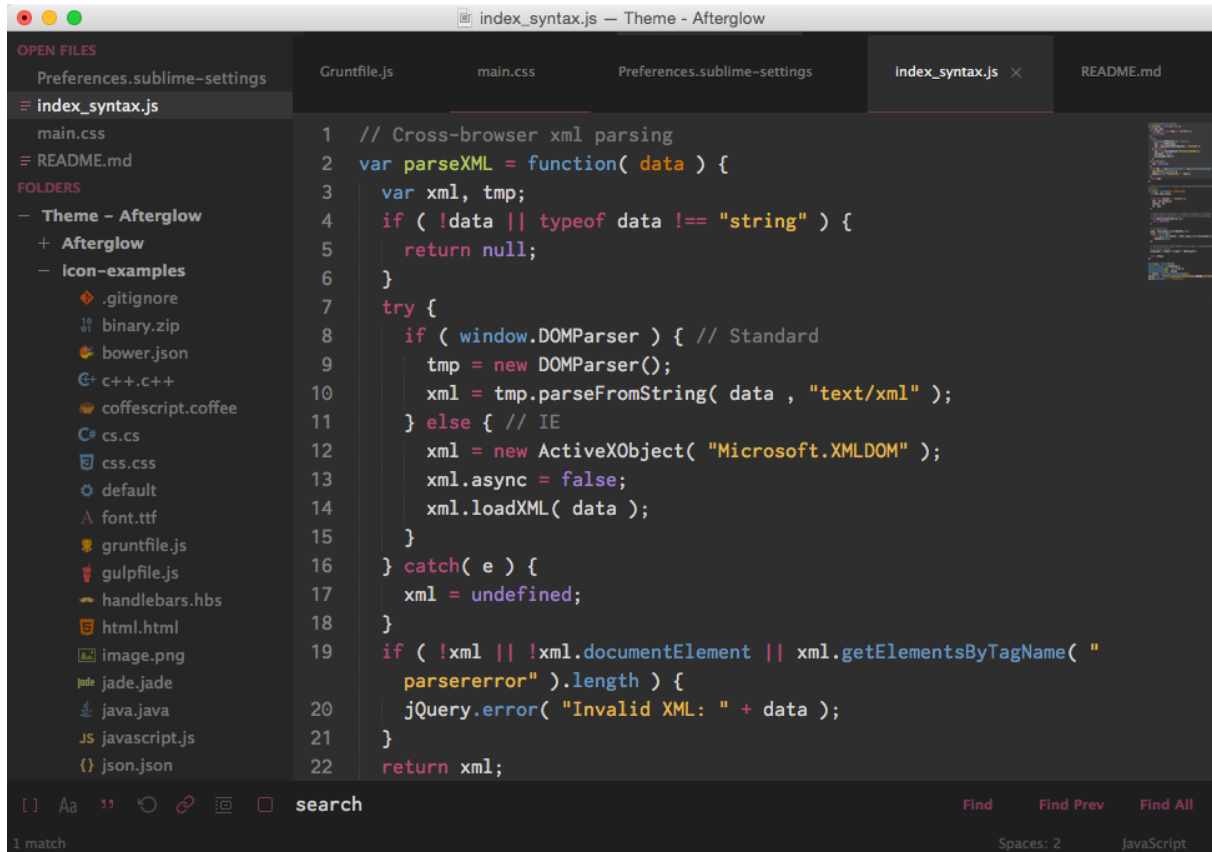

On Windows, tab labels are displayed in *italic* font. If you don't like that, you can add this to the user preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {  
2   "tabs_label_not_italic": true  
3 }
```

## Color schemes

### Afterglow - Monokai

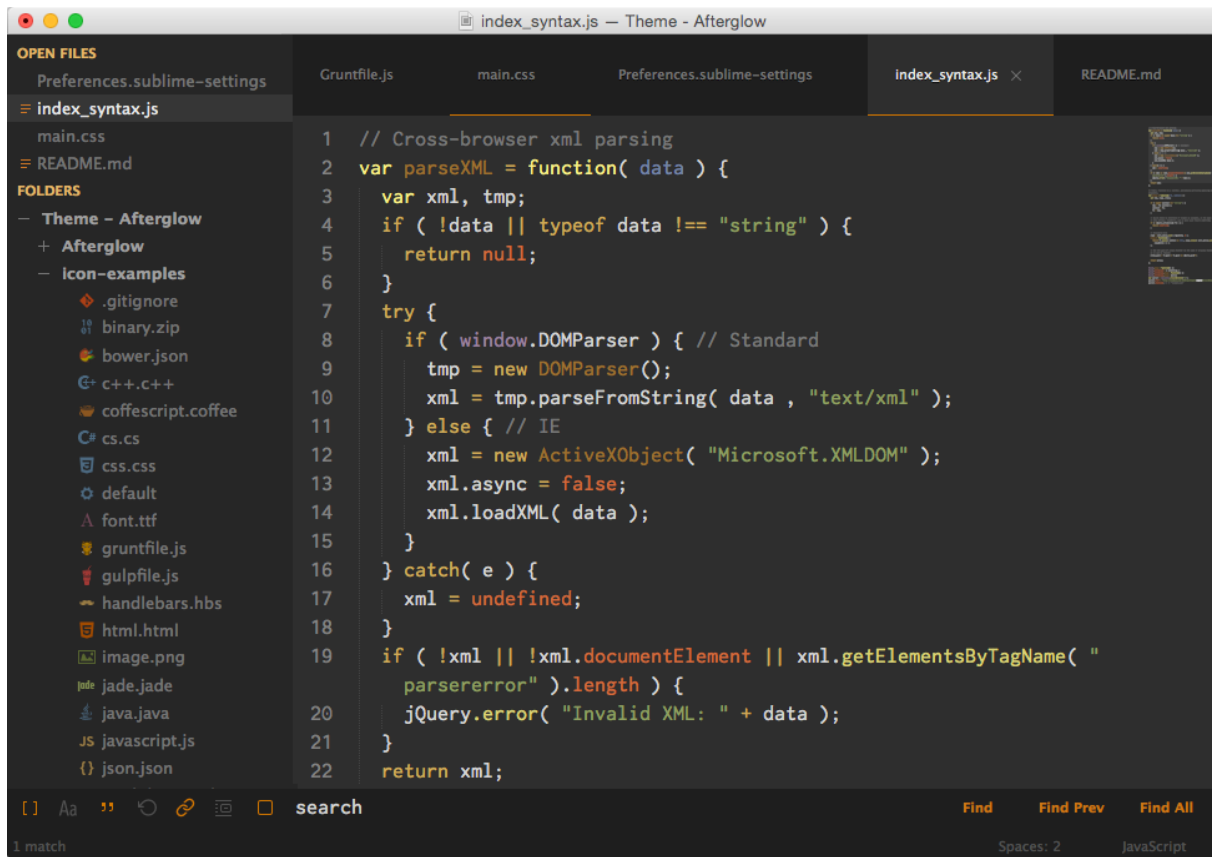

Besides color scheme by default, you can use the color scheme [Afterglow - Monokai](#) based on the original [Monokai](#), slightly modified to be consistent with the Theme colors.

You must add this in your user preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {
2     "color_scheme": "Packages/Theme - Afterglow/Afterglow-monokai.
3     tmTheme"
```

## Afterglow - Twilight

If you prefer, you can use the color scheme [Afterglow - Twilight](#) (very slightly modified from the original), adding this to the user preferences file [Sublime Text -> Preferences -> Settings - User](#):

```
1 {
2     "color_scheme": "Packages/Theme - Afterglow/Afterglow-twilight.
3     tmTheme"
```

---

## Markdown

```
### Git Installation

Locate your Sublime Text 'Packages directory' by using the menu item `
Preferences -> Browse Packages...`.

Then, clone the repository using this command:

    git clone https://github.com/yabatadesign/afterglow-theme/ "Theme -
    Afterglow"

### Manual installation

* Download the [GitHub .zip](https://github.com/yabatadesign/Afterglow-
theme/archive/master.zip)
* Unzip the files and rename the folder to `Theme - Afterglow`
* Find your `Packages` directory using the menu item `Preferences -> Browse
Packages...`
* Copy the folder into your Sublime Text `Packages` directory.

## Activating the Theme

Activate this theme and color scheme by modifying your user preferences file,
which you can find using the menu item `Sublime Text -> Preferences ->
Settings - User`.

Then add the following code settings, depending on the theme you choose. **
After activating the theme, you must restart Sublime Text.**

### Settings for Afterglow

{
    "theme": "Afterglow.sublime-theme",
    "color_scheme": "Packages/Theme - Afterglow/Afterglow.tmTheme"
}
```

**NEW:** This color scheme support **Github Flavored Markdown**.

**To enable Afterglow for Markdown** (I highly recommend installing Sublime Markdown Extending plugin.)

First, **open a markdown(.md) file**, then navigate to **Sublime Text -> Preferences -> Settings - More -> Syntax Specific - User** in the menu bar.

Add to your current settings or replace with the following:

```
1 {
2     "color_scheme": "Packages/Theme - Afterglow/Afterglow-markdown.
   tmTheme",
3     "draw_centered": true,
4     "draw_indent_guides": false,
5     "trim_trailing_white_space_on_save": false,
6     "word_wrap": true,
7     "wrap_width": 80 // Sets the # of characters per line
8 }
```

---

## Dock Icon

You can also download a replacement icon for Sublime Text [here](#).

## Retina Resolution UI

Afterglow Theme support retina display.
