
Flutter App for PhotoPrism (iOS and Android)

PLEASE NOTE:

- The Flutter App for PhotoPrism® **is not official** and should be installed by developers and advanced users only
- This repository is community-maintained, do not contact the core team if you need assistance
- The latest version is not compatible with the current version of PhotoPrism (see below for details)

Screenshot

Currently Incompatible with PhotoPrism :warning:

This app is currently incompatible with the latest version of the PhotoPrism backend (to get the latest compatible version, use the legacy links below).

The status of the pull request with the necessary backend api changes can be seen [here](#).

If you want to use the latest version of the app until this is merged, you can either build the photoprism backend with the patches from source or use the docker image [thielepaul/photoprism:db-api](#).

Get the latest version of the mobile app including the backend incompatible changes: * APK for Android * Testflight for iOS

Features

- View your photoprism photos and albums
- Photos and albums will be cached so they are available even without internet connection
- Create, rename and delete albums
- Add photos to albums
- Remove photos from album
- Archive photos
- Manual photo upload
- Automatic photo upload (experimental)
- Share photos with other apps
- Use PhotoPrism instances behind HTTP Basic Authentication
- Support for password protected photoprism instances

Planned features

- Archived photos view
- Improve cache management
- Improve auto uploader
- View meta data

How to contribute

If you like the app and the project, please give us a star on GitHub. This keeps us motivated. We are also happy about every bug and ideas for improving the app.

If you'd like to make an enhancement to the application, please see the contributing docs for information on how to build and run the application.

Installation

:warning: This is the legacy version of the app with many known bugs, please do not open issues regarding this version of the app. :warning:

Android

- The latest .apk file can be downloaded [here](#).

PhotoPrism® is a registered trademark

The official Trademark and Brand Guidelines, which may be updated from time to time, describe how PhotoPrism's Brand Assets may be used. You may generally not include the PhotoPrism trademark in the name of your app, product, or service, whether commercial or non-commercial in nature. To indicate compatibility with PhotoPrism, please use one of the following options:

- *compatible with PhotoPrism*
- *works with PhotoPrism*
- *for use with PhotoPrism*
- *for PhotoPrism*
