

\*CyberCode Online is a **browser & mobile based MMORPG game**\*

CCO is meant to be played casually with AFK tasks, leveling, and crafting. It also includes a huge array of randomly generated enemies, dungeons, and locations pulled from a user-contributed list. The game provides a platform for everyone to have fun and relax!

**Click CyberCode Online or download the mobile app to start your adventure now!**

### **Bug Report / Suggestion**

For Bugs please join our discord and post bug report in the bug report channel

If there is a serious exploit please **don't** create an issue here, email me directly at ching.huang.dexter@gmail.com.

Requests and suggestions can be left on the Discord server.

If you would like to help to maintain CyberCode Online, please feel free to submit a PR (pull request).

---

### Help Needed:

- contribution/words.json - Random Words
- contribution/dungeon/layout/structure-mask.json - Dungeon Layouts
- contribution/mobile/{lang}/tips.md - Tips for Mobile
- contribution/mobile/{lang}/tutorial/\*.md - Tutorial
- contribution/mobile/{lang}/procedural-names - equipment names

**Note:** In order to keep things less confusing, please avoid adding additional tier prefixes.

- contribution/mobile/{lang}/item/lore - item lore
- contribution/mobile/{lang}/scenario/\*\* - drop lore
- contribution/mobile/{lang}/dungeon-lore/\*\* - dungeon lore
- tips.txt - Tips for desktop
- tutorial/\* - Desktop Tutorial
- contribution/lang/ - Localizations

Open in Codeflow

### Simply edit file tutorial

<https://youtu.be/u-fvMsyJKH4>

If anyone has time to make a better one, please let me know :D
